BACKGROUND OF THE INVENTION

 The present invention relates in general to a gaming device, and more
particularly to a gaming device having an award distributor and an award
20 accumulator bonus game.

 Gaming device manufacturers strive to make gaming devices that
provide as much enjoyment and excitement as possible. Providing a bonus
game in which a player has an opportunity to win potentially large awards or
credits in addition to the awards associated with the base game of the gaming
25 device is one way to enhance player enjoyment and excitement.

 Known gaming devices having bonus games employ a triggering event
that occurs during play of the base game operation of the gaming device. The
triggering event temporarily stalls or halts the base game play and enables a
player to enter a second, different game, which is the bonus game. The player
30 plays the bonus game, likely receives an award, and returns to the base game.
In most instances, the bonus game is relatively short in relation to the time that
